Immunization Requirements

Attendance at the Charter School may be denied to any child who does not provide an immunization record to the Charter School regarding the child’s immunity to certain childhood diseases. Immunity requirements are met if the child has received or is in the process of receiving immunization as specified by the Board of Health and Welfare or has previously contracted the disease. The parent or legal guardian of the child must comply with the immunization requirements at the time of admission and before attendance for the child.

Immunization Certification

The immunization record must be signed by a physician or physician’s representative or another licensed health care professional including osteopaths, nurse practitioners, physicians’ assistants, licensed professional nurses, registered nurses, and pharmacists stating the type, number, and dates of the immunizations received.

Intended Immunization Schedule

The schedule of intended immunizations statement must be provided by the parent/guardian of a child who is in the process of receiving or has been scheduled to receive the required immunizations. A form is provided by the Department of Health and Welfare or a similar one may be used provided it includes the following information:

1. Name and date of birth of child;
2. Grade child is enrolling in and attending;
3. Types, numbers, and dates of immunizations to be administered;
4. Signature of the parent/custodian/guardian; and
5. Signature of a licensed health care professional providing care to the child.

Children admitted to the Charter School and failing to continue the schedule of intended immunizations will be excluded from school until documentation of administration of the required immunizations is provided by the child's parent/custodian/guardian.

Exemptions

1. Any child who submits a certificate signed by a physician licensed by the State Board of Medicine stating the physical condition of the child is such that all or any of the required immunization would endanger the life or health of the child is exempt from the immunization requirements.
2. Any minor child whose parent or guardian submits a signed statement to Charter School officials stating their objections on religious or other grounds is exempt from the immunization requirements.
3. A child who has laboratory proof of immunity to any of the childhood diseases listed above will not be required to be immunized for that disease.
4. A child who has had varicella (chickenpox) diagnosed by a licensed physician upon personal examination will not be required to be immunized for the disease provided they submit a signed statement from the diagnosing physician.

A child exempted under one of the above requirements may be excluded by the Charter School in the event of a disease outbreak.
