for the following Project:

Hummel Project Number 22025-00

Alturas International Academy
Cafeteria Tenant Improvement
151 N Ridge Ave
Idaho Falls, Idaho 83402

The project consists of an approximately 5,700 sq.ft. renovation to an existing restaurant into a new Cafeteria for the Alturas International Academy. The project is located within an existing 1920’s era building, located adjacent to Downtown Idaho Falls. The project will open up an existing storage room, conference facility and existing seating area into new cafeteria space for the students. The existing kitchen footprint will be retained, and new equipment purchased. Alturas Academy will consult with a kitchen vendor to provide an equipment list. The design team will explore a new kitchen layout to ensure the proper flow in the new cafeteria. The kitchen will be a full-service kitchen and food will be prepared onsite, necessitating the need for a grill/fume hood system. The kitchen will serve approximately 600 students a day. There is an approximately 2’-0" difference in grade between the kitchen and existing seating/conference area. The project will confirm if the existing circulation will work and provide new alternatives if necessary. The design team will pursue providing openings in a structural wall between the new upper and lower cafeteria a new main staircase from the main level to the new cafeteria. Our structural engineer will review the following scope:

- Investigative Site Visit
- Ramp expansion
- Existing stair expansion
- Penetrations through the existing walls

The items listed above will be fully designed for the project and included as alternates for bidding. This will allow the project to accept or reject these elements based on the bids received from a contractor.
