### Student and Family Privacy Rights

#### Surveys - General

Surveys requesting personal information from students, as well as any other instrument used to collect personal information from students, must advance or relate to the Charter School's educational objectives as identified in Board policy. This applies to all surveys, regardless of whether the student answering the questions can be identified and regardless of who created the survey.

Personally identifiable information from student education records may be disclosed to an educational agency or institution in order to:

1. Develop, validate, or administer predictive tests;
2. Administer student aid programs; or
3. Improve instruction.

In such cases, the school shall enter into a written agreement with the receiving organization. The study must not allow identification of individual parents or students by anyone other than representatives of the organization with legitimate interests in the information and the information must be destroyed when it is no longer needed for study purposes.

#### Surveys Created by a Third Party

Before the Charter School administers or distributes a survey created by a third party to a student, the student's parent(s)/guardian(s) may inspect the survey upon request and within a reasonable time of their request.

This section applies to every survey:

1. That is created by a person or entity other than a Charter School official, staff member, or student;
2. Regardless of whether the student answering the questions can be identified; and
3. Regardless of the subject matter of the questions.
