SECTION 15: CONTRACT ADJUSTMENTS:

A. Consumer Price Index (C.P.I.) Adjustment:

- (1) The annual C.P.I. adjustment shall be based on the Consumer Price Index as defined by the Federal Government. The C.P.I. to be used will be the “Consumer Price Index for All Urban Consumers: U.S. City Average for All Items (1982-84 = 100)” published monthly in the Monthly Labor Review of the Bureau of Labor Statistics of the United States Department of Labor (“CPI-U”). In the event the CPI-U is discontinued, the alternate C.P.I. which will be used will be the “Consumer Price Index for All Urban Wage Earners and Clerical Workers: U.S. City Average for All Items (1982-84 = 100)” published monthly in the Monthly Labor Review of the Bureau of Labor Statistics of the United States Department of Labor (“CPI-W”). Further still, in the event both the CPI-U and the CPI-W are discontinued, comparable statistics on the purchasing power of the consumer dollar published by the Bureau of Labor Statistics of the United States Department of Labor will be used for the computation.
- (2) The base contract shall be for a term of five (5) years, beginning August 1, 2022. The prices bid by Contractor will be used for the operations during the first year of the contract, August 1, 2022 through July 31, 2023. Contractor compensation for the second and third years of the contract, beginning on August 1 of each successive year, shall be based on the percentage of increase (or decrease) in the Consumer Price Index (C.P.I.-U). The “Benchmark Month” for determining the change in the C.P.I.-U shall be June 2021. If the increase (or decrease) in the C.P.I.-U from the Benchmark Month to June 2022 is at least one percent (1%), the rates for the second year of the contract shall be adjusted. The increase (or decrease) calculation is cumulative over the entire contract period. See the following “Sample Calculation”. This procedure and calculation will be followed to determine the rate charges for the remaining years of the contract.

Sample Calculations:

CPI-U June 2021 (benchmark)	169.2
CPI-U June 2022	170.3
CPI-U June 2023	173.1

CPI-U June 2022	170.3	
CPI-U June 2021 (benchmark) LESS:	169.2	
Difference	1.1	
Benchmark DIVIDE:	169.2	
Percentage of Change	0.650%	No Rate Increase
CPI-U June 2023	173.1	
CPI-U June 2021 (benchmark) LESS:	169.2	
Difference	3.9	
Benchmark DIVIDE:	169.2	
Percentage of Change	2.305%	Rate Increase

(3) In calculating the C.P.I.-U each year, an adjustment to the C.P.I.-U will be made to remove the diesel fuel portion from the C.P.I.-U index before applying the C.P.I.-U to the rates. The calculation will be made according to the recommended methodology by the State of Idaho Department of Education using information from the U.S. Department of Labor, Bureau of Labor Statistics.

B. Fuel Price Fluctuation Adjustment:

- (1) To protect both the School and Contractor against future changes in fuel prices over which neither School nor Contractor have control, the School will figure a base price for fuel as of MONDAY APRIL 3rd, 2023. The base price of diesel #2 lowsulfur is \$2.0866 This price does include applicable State and/or Federal taxes.
The base price was determined by using the Oil Price Information Service (OPIS) average price for the State of Idaho and confirmed with local supplier.
- (2) Starting August 1, 2023, the Contractor's rates will be adjusted up or down for any difference in the base fuel price above or below the base fuel price. For every incremental fuel price change of at least five cents (\$0.05) above or below the base fuel price, there will be a fuel price adjustment added or subtracted from the route rates in the amount of \$.50 per-route-per-day. Rate adjustments up or down will not be calculated more frequently than once per month.

C. Bidder will be entitled to the C.P.I. Adjustment and the Fuel Price Fluctuation Adjustment. The use of one adjustment does not preclude the use of the other adjustment.

D. In the event that the transportation model or other material changes are made (e.g., a four-day school week, funding changes made at the State level, etc.), it is agreed that all bid rates submitted and/or are currently in place will be reviewed and renegotiated by the parties for the remainder of the contract term to take into account the modified school student transportation model or other material changes.

10.1 **Contractor Compliance with Governmental Authority.** Contractor and Contractor's drivers are required to comply with all Federal laws, the laws of Idaho, and all regulations or requirements of the State Motor Vehicle Department, Public Utilities Commission, and the State of Idaho and the local Board or any of them. Furthermore, all school bus drivers employed by Contractor must submit to a criminal history background check pursuant to Idaho Code § 33-130.

10.2 **Agreement is Subject to Governmental Appropriations.** It is understood and agreed that District is a governmental entity, and this Agreement shall in no way or manner be construed so as to bind or obligate the District or the State of Idaho beyond the term of any particular appropriation of funds by the Idaho Legislature or the Congress of the United States as may from time to time exist. In the event the Idaho Legislature or Congress fails, neglects, or refuses to appropriate such funds as may be designated by and enable the District to continue the payment herein, this Agreement shall automatically be terminated and all future rights and liabilities of the parties hereto shall thereupon cease.

SECTION ELEVEN - PAYMENT

11.1 **Billing, Payment and Verification Procedures.**

a. *Billing and Payment.* On or before the eighth (8th) day of each month of each school year covered by this contract, Contractor shall submit to District a bill that shall include a detailed account

showing the mileage covered in each category of transportation furnished during the preceding month. On or before the thirtieth (30th) day of the month in which the bill is submitted, District agrees to pay Contractor the contract price for those services that it shall find to have been rendered, computed on the basis of the bid submitted by the Contractor to District, adjusted by the terms of the adjustment provisions set forth in paragraphs 11.2 through 11.5, below, if applicable. Contractor agrees to submit to District a year-end summary for state reimbursement by August 1st of each year for the preceding one-year period.

b. *Past Due Billings.* If payment is not received by the thirtieth (30th) day of the month which follows the month the billing was originally submitted, transportation will cease at the end of the month that the billing became past due.

c. *Verification.* District has the right to inspect Contractor's records at any reasonable time during Contractor's regular business hours to verify the accuracy of the information and data used to compile and calculate the billing. This right may include an annual audit within the scope of this Agreement; provided, however, that any such audit, if called for by District, shall be at the cost and expense of District, not Contractor.

11.2 Consumer Price Index (C.P.I.) Adjustment.

a. *Applicable C.P.I.* The annual Consumer Price Index ("C.P.I.") adjustment shall be based on the C.P.I. as defined by the Federal Government. The C.P.I. to be used will be the "Consumer Price Index for All Urban Consumers: U.S. City Average for All Items (1982-1984 = 100)" published monthly in the Monthly Labor Review of the Bureau of Labor Statistics of the United States Department of Labor ("CPI-U"). In the event the CPI-U is discontinued, the alternate C.P.I. which will be used will be the "Consumer Price Index for All Urban Wage Earners and Clerical Workers: U.S. City Average for All Items (1982-1984 = 100)" published monthly in the Monthly Labor Review of the Bureau of Labor Statistics of the United States Department of Labor ("CPI-W"). In the event both the CPI-U and the CPI-W are discontinued, comparable statistics on the purchasing power of the consumer dollar published by the Bureau of Labor Statistics of the United States Department of Labor will be used for the computation.

b. *Diesel Price Alteration to CPI-U.* To avoid compounding of the Fuel Price Fluctuation Adjustment set forth below at paragraph 11.3, a diesel price alteration to the CPI- U will be made to remove the diesel fuel portion from the CPI-U index before applying the CPI- U for annual rate adjustments provided for in subparagraph (c), below. The alteration will be made in accordance with the recommended methodology by the State of Idaho Department of Education using information from the Bureau of Labor Statistics of the United States Department of Labor.

c. *C.P.I. Adjustment Calculation.* The base contract shall be for a term of three (3) years, beginning August 1, 2021. The prices bid by Contractor will be used for the operations during the first year of the contract, August 1, 2021, through July 31, 2022. Contractor compensation for the second, and third years of the contract, beginning on August 1 of each successive year, shall be based on the percentage of increase (or decrease) in the CPI-U). The "Benchmark Month" for determining the change in the CPI-U shall be June 2021. If the increase (or decrease) in the CPI-U from the Benchmark Month to June 2022 is at least one percent (1%), the rates for the second year of the contract shall be adjusted by the amount of the increase (or decrease). This same procedure will be followed to determine the rate charges for each of the remaining years of the contract.

11.3 Fuel Price Fluctuation Adjustment.

a. *Base Price.* To protect both the District and Contractor against future changes in fuel prices over which neither District nor Contractor has control, the District has determined a base price for fuel as of Monday April 3rd, 2023. The base price of diesel #2 low sulfur fuel was \$2.0866 per gallon ("Base Price") as of that

date. This price does not include any applicable state and/or Federal taxes.

b. *Calculation of Adjustment.* Starting August 1, 2023, the Contractor's rates will be adjusted up or down for any difference in the current Pocatello Rack price based on the OPIS Price above or below the Base Price. For every incremental price change of at least five cents (\$0.05) above or below the Base Price, there will be a fuel price adjustment added to or subtracted from the route rates in the amount of \$.50 per-route-per-day. Rate adjustments up or down will not be calculated more frequently than once per month. This adjustment is independent of the C.P.I. Adjustment of paragraph 11.2, above.

11.4 **Mandates by Local, State or Federal Government.** It is recognized that governmental mandates, whether local, state, or Federal, that were unanticipated and/or did not exist at the time of bidding, that might require additional training, retrofitting of equipment or any other requirements that become necessary to fulfill the terms of the contract, might be adopted and effective during the period of the contract. Generally, such cost shall be borne by Contractor; however, if such mandates are qualified to be paid by the state or other governmental entity, Contractor, upon presentation of a statement of costs incurred, will be compensated by District as normal and necessary transportation costs of the District.

11.5 **Effect of Material Fundamental Changes to District Busing Model.** It is understood and agreed by District and Contractor that the bidding by Contractor for this contract was predicated on the student transportation model anticipated by the District. In the event any material changes are implemented by the District during the term of this contract which would affect material fundamental changes in the existing student transportation model, the parties agree that all bid rates for the contract will be reviewed and renegotiated by the parties for the remainder of the contract term to take into account the altered District student transportation model.

Sample Payment Schedule

SECTION THIRTEEN - INSPECTION

District reserves the right for its members or duly authorized agents to inspect any and all buses and their operation by riding as passengers or by other reasonable means.

SECTION FOURTEEN - TIME OF THE ESSENCE

Since the contract concerns a necessary public service, the provisions of the contract relating to the daily schedule and regulations that may be promulgated by the District are of the essence of the contract. Accordingly, Contractor shall prosecute the work diligently to assure adherence to the schedules.

SECTION FIFTEEN - ASSIGNMENT OF CONTRACT

Contractor agrees not to assign this contract, or any interest in the contract, without the prior approval in writing of the District, which approval shall not be unreasonably withheld.
